

SmartHubs Training Day Workshop: How to plan, design and evaluate smart, sustainable, and inclusive mobility hubs?

The SmartHubs consortium is pleased to announce the call for applications for the upcoming Training Day. This workshop is designed to offer practitioners and researchers/doctoral candidates an exclusive opportunity to learn the concepts and tools developed by the SmartHubs project on planning, designing, and evaluating mobility hubs.

Date: April 08, 2024

Location: Technical University of Munich - Munich, Germany

Objective: The workshop aims on learning how to plan, design, and evaluate smart mobility hubs that are sustainable and inclusive. The concepts and tools developed in the SmartHubs project will be practically applied in a case study set in Munich. Participants will have the unique opportunity to learn directly from the developers of these tools and engage with pertinent stakeholders in Munich.

Eligibility: We invite applications from everyone who is interested who are actively engaged in research or practice related to mobility and urban planning. Participation in the workshop incurs no cost.

Application Process: Prospective participants are kindly requested to submit their applications via email to david.duran@tum.de and benjamin.buettner@tum.de by February 05, 2024. The application should include full names, affiliated organization, field of research or practice, and a brief motivational paragraph explaining the reasons for their interest in joining the workshop. For additional details, please refer to our website: www.smartmobilityhubs.eu

We look forward to receiving your applications and welcoming you to the Training Day on mobility hubs.

Sincerely,

SmartHubs consortium
